

VITARO — The hotel gym your guests actually want to use

Fitness studios inside hotels: designed, equipped, staffed and operated by one partner. For resort and vacation hotels, 4–5 star or upscale independent, from single boutique properties to multi-hotel groups. Pilot market: Fuerteventura, then the Canary Islands.

Why hotels are looking at this now

- **63 %** of business travelers say fitness facilities are a deciding factor when choosing which hotel to book. *(American Express & GBTA, Business Travel Sentiment report)*
- **70 %** of travelers say they'd pay more to stay at a hotel with well-equipped fitness facilities. *(Core Health & Fitness / Life Fitness industry surveys, 2025–2026)*
- **80 %** of guests are more likely to return to hotels offering personalized wellness services. *(Core Health & Fitness, 2025 Hospitality Trends)*

A treadmill, a rack of mismatched dumbbells, and a mirror — for many hotels, that's still the entire fitness offer. The travelers driving tomorrow's bookings expect more.

What VITARO delivers

1. **Design and fit-out** — site assessment, equipment selection matched to your guest profile, interior aligned with your brand, sourcing and installation coordinated around your operations.
2. **Staff It Right** — one on-site personal trainer, employed, trained and managed by VITARO (not your HR department), with cover for absences and hours matched to your guest patterns.
3. **Operate and Elevate** — maintenance and safety checks on a fixed schedule, class and session programming, monthly usage reporting.

One contract. One accountable operator. No extra headcount on your payroll — and a new revenue line from personal training sessions and packages.

Partnership models

MODEL	HOW IT WORKS	BEST FIT IF
Full-Service Lease	Fixed monthly fee covers design, equipment, staffing and operations.	You want a turnkey amenity with zero operational involvement.
Revenue Share	No upfront cost. We share the revenue from guest sessions and packages.	You'd rather avoid upfront investment and share in the upside.
Hybrid	Reduced base fee plus a smaller revenue share.	You want a middle ground.

Indicative ranges are shared in the first call; the binding figure is set in the written proposal after the site assessment.

Founding Partner Programme

For the first hotels on Fuerteventura:

- No upfront fit-out cost under the Revenue Share pilot terms
- A shorter initial term with a clear exit clause, agreed before launch
- A direct line to the founder throughout the pilot — decisions in days, not quarters

What the hotel provides

The room (natural light, guest access), power, climate control, water and Wi-Fi. Equipment, design, staff and operations come from us. Insurance and liability responsibilities are split explicitly in the partnership agreement and walked through before signing.

How it works

1. **Initial conversation** — a 20-minute feasibility check: your property, guest profile and goals.
2. **Site assessment** — on site or from floor plans; which model fits best.
3. **Concept and proposal** — design, staffing and commercial terms, in writing, before anything is signed.
4. **Fit-out and launch** — installation and trainer placement, coordinated to avoid disrupting operations.

Next step

Let's build the studio your guests will talk about. Bring your room count and occupancy — we run the method live in the 20-minute call.
